

## Card Processing

A customized, full-service ATM program is vital to your credit union's success. It offers cardholders the convenience, flexibility, and security they want, while providing your credit union with the potential for increased revenue and lower expenses. Corporate Central's Card Processing solutions provide unparalleled service and a reliable delivery system with a preferred partner able to offer a comprehensive range of flexible products and services designed specifically for credit unions – all supported by in-house systems and programs.

### Key Benefits

1. Access complete fraud prevention and management tools for mobile card services, including card on/off controls, transaction alerting and denial controls, and fraud alerts to mobile devices.
2. Our payment card solutions incorporate complete risk management services, loyalty programs, extensive management reporting and analytics, and comprehensive cardholder services.
3. Cardholders use payment cards as a convenient alternative to cash and checks – anytime and anywhere they need to pay. The cards are safer to carry than cash, are more widely accepted than checks and are honored at millions of merchants and ATMs worldwide.
