

Digital Banking

In today's marketplace, a customized, full-service digital banking solution is vital to your success. It offers your members the convenience and flexibility that they want, while providing your credit union with a revenue-generating opportunity.

Credit Union Benefits

1. Offers next generation mobile banking technology giving you the opportunity to generate revenue.
2. Innovative approach and infrastructure provide significant advantages in functionality and flexibility.
3. Data and analytics reporting engines allow you to track and manage member usage and mobile adoption.
4. Meets the standard security requirements and is the conduit for all sensitive information which has already passed vigorous security testing protocols.

Member Benefits

1. Allows your members to access their accounts anywhere, anytime.
2. Fully functional mobile application allows members to easily check balances, review transaction history, make internal transfers, pay bills, and turn on/off debit cards.
3. Mobile Deposit allows members to deposit checks using camera features on their mobile devices.
4. Smart Text enables a quick response for the most common inquiries.
5. P2P enables your member to move money faster with next day funding.
6. Picture Pay makes paying a bill simple and easy.
