

# Funds Transfer

*Corporate Central employs a full-service, secure, robust wire room operation to meet all your funds transfer needs. Making secure and efficient account deposits and withdrawals are vital to your daily operations. Whether you are moving funds to Corporate Central for investment purposes, settling on a loan, or redirecting funds to another financial institution, we have you covered.*

Helping Members  
to be  
*Wildly Successful*

There are four primary classifications for managing your funds transfer needs: **Direct Wires**, **Third-Party Wires**, **Commercial Money Orders (CMO)**, and **International Wires**.

## Direct Wires

Direct wires can be initiated from Corporate Central to another institution or sent to Corporate Central from another institution. Direct wires are very timely and should be used whenever you are transferring large dollar amounts. Direct wires out of Corporate Central can be initiated through Corporate CAFÉ directly out of your Plateau/Premier Account. Wires sent into Corporate Central will settle directly into your Plateau/Premier Account.

## Third-Party Wires

When you need to send funds to other financial institutions for your members, Corporate Central offers third-party wire transfers. Third-party wires can be initiated, verified, and sent safely through Corporate CAFÉ to almost anywhere in the world.

## Commercial Money Orders

Commercial Money Orders are a fast and simple way of transferring funds for your members. CMOs are easy for the recipient to pick up. The recipient supplies the appropriate security information to the Western Union agent location and receives the funds.

## International Wires

As business and travel needs expand world-wide, it becomes critical for credit unions to arm members with comprehensive, low-cost solutions for sending foreign and U.S. funds abroad. Corporate Central international services provide the global link our members need to stay connected across borders and overseas.
