![Corporate Central - Helping Members to be *Wildly* Successful]

Item Processing

Credit unions handle transactions through a variety of sources including electronic files, ATM/ITMs, check images, mobile devices, image cash letter files, and more every day. Item processing converts these transactions into a uniform format to ease processing. Corporate Central's Item Processing solution provides credit unions with quick, efficient, customizable options that keep operations lean and efficient, while expanding reach and allowing credit unions to stay competitive. Our flexible Item Processing solution uses industry-leading technology designed to change based on each credit union's needs.

• Simplify Operations
• Increase Adoption Rates
• Improve Efficiency
• Customizable Programs
• Recover Lost Funds Quickly

Key Benefits

1. Customizable program to meet your credit union's budget and needs.

2. Reduces or eliminates capital investments and labor costs.

3. Mitigates exposure to fraud with our comprehensive deposit review capabilities and our innovative fraud detection solutions.

4. Late return processing and high dollar notifications simplify credit union operations.

5. Improves member satisfaction and improves efficiency with immediate access to check images, stored online up to seven years.
