

## Loan Participations (Buying and Selling)

QuantyPhi's Loan Participations program is an effective balance sheet tool that enables you to better manage your credit union's liquidity. The online Loan Participations platform is suitable for any size credit union, loan, or deal volume. It streamlines the process from origination to maturity. Whether your credit union is looking to buy or sell loans, the platform allows you to set parameters that match your credit union with the appropriate buyer or seller.

- Unlimited Number of User Registrations Available at No Charge
- Technical Support Readily Available
- Transparency that Allows for Competitive Pricing and Strategy
- Proprietary Market Data Used to Market to Potential Buyers
- Free Standard Participation Agreement

### Key Benefits

1. Loan participations compliant with GAAP accounting standards, NCUA requirements and CECL criteria.
2. Opportunities to review loans simultaneously with other users-reducing due diligence time and expense.
3. Reports and analytics tailored to your key performance metrics transmitted through safe, cloud-based, encrypted files.
