

Mobile SmartApps

Are you looking for a customizable, robust mobile solution to offer your members? Is your credit union getting the most out of your digital banking applications?

Helping Members
to be
Wildly Successful

In today's marketplace, a customized, full-service digital banking solution is vital to your success. It offers your members the convenience and flexibility they want, while providing your credit union with a revenue-generating opportunity.

Credit Union Benefits

- Offers the most up to date, next generation mobile banking technology giving you the opportunity to generate revenue
- Innovative approach and infrastructure provides you with significant advantages in functionality and flexibility
- Data and analytics reporting engines allow you to track and manage member usage and mobile adoption
- SmartMarketing enables you to successfully market your solution by giving you access to training materials, marketing schedules, best practices and easily customizable templates
- SmartApps already meets the standard security requirements, and is the conduit for all sensitive information which has already passed vigorous security testing protocols, giving you peace of mind

Member Benefits

- Allows your members to access their accounts anywhere at any time
- Fully functional mobile application allows members to easily check balances, review transaction history, make internal transfers, pay bills, and turn on/off debit cards
- Mobile Deposit allows members to deposit checks using camera features on their mobile devices
- Smart Text enables a quick response for the most common inquiries
- P2P enables your member to move money faster with next day funding
- Picture Pay makes paying a bill simple and easy
