

Virtual CIO

A virtual Chief Information Officer (CIO) is an experienced, multi-faceted senior technology professional who serves as a virtual/part-time CIO for an organization that cannot afford or does not need a full time executive. Credit unions need senior technology leaders who understand credit unions and provide technology directions to support them. Think|Stack offers virtual CIO (vCIO) services for credit unions that cannot afford or do not need a full time executive.

- IT and Business Strategies Alignment
- IT Leadership and Management
- Key Performance Metrics Definition
